INTRODUCTION:

This bibliography represents a special collection maintained by the Assistant Director of the Department Library, which was in part instrumental in converting many of the Library's functions from manual to machine methods over the past four years.

The collection consists of over 2,000 articles, books, documents, reports, speeches, symposia, transactions, translations and similar material.

The bibliography is divided into three sections:

~~Section I~~ - Alphabetic Arrangement

~~Section II~~ - Subject Arrangement

~~Section III~~ - Indexes

- a) Personal Authors,
- b) Corporate Authors,
- c) Subject Listing.

Documents from this collection may be borrowed by research and professional staff if not available in regional or local areas.

Any material or publications bearing on the overall content of this document and not presently included would be most welcome and appreciated. These should be addressed to:

Mr. Herbert Holzbauer
